

**REMARKS**

This responds to the Notice of Allowance mailed October 29, 2007. The specification has been objected to because it contains a computer program listing that has more than 300 lines of program code. In response to the Examiner's recommendation, enclosed herewith are two identical copies of a CD-ROM containing a "computer program listing appendix" submitted in duplicate in accordance with 37 CFR 1.77(b), 1.52(e)(5), 1.96(b) and 1.96(c) containing a *verbatim* copy of the source code labeled "Appendix A" from page 44 through page 147 of the application as filed and as contained on the CD submitted in Serial No. 10/799,429.

In addition, the Specification has been amended to add the required incorporation by reference and remove the computer program text from the portion of the application that will publish.

**CONCLUSION**

In the event any issues remain that could potentially be resolved by telephone, the Examiner is urged to contact the undersigned at the number indicated below. Should any additional fee(s) be required for the entry of this Amendment, the Commissioner is hereby authorized to charge Deposit Account No. **13-4500**, Order No. **4754-4000US1**.
